

PROGRAM RANK LIST: ISSUING OFFERS TO APPLICANTS AND OTHER CONSIDERATIONS

- Applicant is ranked by your program but an offer was not sent in this round.
- Applicant received an offer from your program but has not accepted or declined it.
- Applicant has accepted your offer of a position. The applicant will show as "unavailable" to other programs and any other offers extended to the applicant from other programs are automatically "declined" by CASPRweb.
- Applicant has declined your offer of a position. The offer will not be extended again to the applicant during MP II.
- Applicant has accepted an offer from another Program.
- A position was offered to the applicant but the applicant took no action on your offer and it "expired" at the end of the round. Expired offers are not extended again to the applicant during MP II.

Other Rank List Considerations:

- Applicants do not submit rank lists.
- A rank list **MUST** be submitted/saved prior to start of each MP II round. If the rank list is not saved, no offers will be sent during that round.
- A rank list updates real-time as offers are sent, accepted, or rejected.
- A rank list updates real-time as applicants become "unavailable" as a result of accepting a position in another program.
- Offers rejected by applicants are **NOT** immediately issued to the next available applicant on the programs' rank list. Offers are issued **ONLY** at the start of each MP II round.
